

CONTAINER CLOSURE INTEGRITY TESTING

Container Closure Integrity Testing (CCIT)

As an independent, third party laboratory, Whitehouse Laboratories is a trusted testing partner for regulatory compliant Container Closure Integrity Testing as detailed in USP <1207>.

Our team of experts utilize state of the art technologies to offer leak test method development and validation in a fully accredited, cGMP environment.

- **USP <1207> Testing Experts**
- **Leak Test Method Validation Specific to Container & Product Type**
- **Vacuum Decay, High Voltage Leak Detection, & Seal Scan Testing**
- **Laser-based Headspace Analysis**
- **Mass Flow Leak Detection**
- **Helium Mass Spec Leak Testing**
- **Residual Seal Force Testing**
- **Parenteral Vial Capping Optimization**

Operating through a dedicated “**Container Testing Center of Excellence**”, the entire container testing team actively works with clients to ensure regulatory compliance is always met when it comes to container leak testing.
